TO WHOM IT MAY CONCERN

Dear Sir,

One of our operation requires a very high static and high capacity exhaust system to prevent contamination of our product. This exhaust system also has to be reliable with minimal maintenance.

Through KB Bandaraya and the Stream (CFM) machines, we have done that. Now, we have a total of 12 machines. When the need arises, they keep a stock of the spare parts and the after sales service is prompt, so I have nothing to worry about.

Keep it up!
