CENTRAL VACUUM SYSTEM FOR VACUUM PENCILS IN CLEAN ROOM

With reference to the above, we would like to express our appreciation to KB Bandaraya for putting up an effort and at your own expenses to provide us with good design expertise for a solution to increase vacuum strength for vacuum pencils in our clean room. Furthermore, your willingness to put up an on loan vacuum system during the testing period is a remarkable effort to ensure us that the design meets our expectation.

Thus; we have no doubt that your expertise in engineering and equipment supply will meet any stringent requirement. Your high level of commitment is very much appreciated to ensure the project run smoothly.

We would like to thank you again for the good job done.
Thank you.

Sincerely yours,

(Mohammad Fauzee)
