

VILLA SRI NADIA

73, Lebu Bukit Jambul, 11900 Bayan Lepas, Penang
Telephone 04-6421972

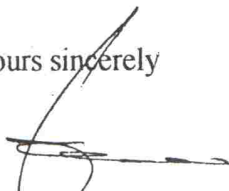

TO WHOM IT MAY CONCERN

Our 5200 sq. ft. bungalow in Bukit Jambul was completed in late 1994. It was a dream came true for both my wife and I. Looking back, it was indeed worth all the effort to save hard throughout our working life to realise this dream.

A house is of course not a house, let alone a home, if it is not well-maintained and kept spit and span all the time. We have one helper to assist. However, a house of this size requires more than one helper - but this is a rare commodity today besides being expensive. Thanks to K.B. Bandaraya and its sales representative, Mr. Paul Newman, who persuaded us to install a built-in vaccum system called STREAM when the house was in its last stages of completion. We have not regretted installing this system ever since, since cleaning has never been made so thorough and easy. Our friends who visited us have always complimented us on how well we have kept our home.

We would recommend STREAM to anyone who cares about living clean and healthy and takes pride in their home.

Yours sincerely

Tan Sri Dato' Musa bin Mohamad
