34, Lorong Baru,  
10400, Penang

28th October 1995

Dear Sir,

When I was recently asked by K.B.Bandaraya (dealer of Nexaldes) to give my views on our Stream Centralised Vacuum Systems, I was initially unsure as to how do I put a message of their benefits across to people when I was sceptical of them in the first place. That was in 1990.

At the moment of writing, we are enjoying higher productivity through our 7 Stream Systems. We have invested close to a million ringgit for that and I must add that it is worth every cent.

The vendor has also proven their professionalism in their services.
